

My name is Maria McCue and I congratulate you for taking the time to learn more about the Sunrider opportunity. My husband Bernard and I have been associated with Sunrider International for over 15 years and feel it has been one of the best personal and business decisions we have ever made.

We, like many of you, were very busy when first introduced to this opportunity. Bernard and I are entrepreneurs. Bernard was involved with a very busy counseling business and I was involved in the beauty industry and a consulting business. Were we no strangers to working hard and long workdays! Although we had great business success we did not have the “**Time Freedom**” that we desired nor did we have the amount of “**Leveraged Income**” we desired for our future. We realized that the time had come that we needed to diversify our income and develop an income stream that did not rely on our own personal time, efforts & expertise. We also wanted an income stream that eventually would be a passive income; meaning once established an income that would *continue* without daily efforts yet would continue to *increase* without new daily efforts. We also wanted a business and income stream that was portable, giving us additional freedom to travel.

The Sunrider opportunity provided for all these requirements and more. With recent changes in our economy, stock market and corporate downsizing, we feel the timing for developing a Sunrider business is ideal. Many business owners and people are over stressed because of high overhead and long work hours. Most business owners find it hard to delegate responsibilities to qualified people and then must do multiple tasks, some of which

really do not generate income. Many in the workplace worry if their job will be the next to be downsized or eliminated due to mergers.

We also recognized that the Wellness Industry will be the greatest industry of growth in the coming decade. The baby boomers, who are one of the most influential buying generations, are now reaching into their 40’s and 50’s. They are looking for quality products that support wellness and enhance beauty. The high demand for these types of products will only continue to increase.

Because of our personal expertise and experience we know that the Sunrider line of Nutritionals, Skin Care and Personal Care products deliver the highest quality and value for our dollars spent. Bernard and I have both enjoyed higher levels of health and energy by using and consuming the Sunrider products.

As many can relate, as we become more mature and wiser having a business system work for you to generate income rather than you trading your personal time for money becomes much more appealing. Our Sunrider business system has integrated the best of Franchising (a simple duplicatable system) with the best of a Networking Marketing Plan which includes a manufacturer’s “Distribution and Compensation Plan”. When you combine that with a dynamic team of Leadership and Mentorship you have a unique opportunity for success!

This opportunity has already allowed for many of our dreams to come true and we are excited about the future with Sunrider. Bernard and I invite you to become a member of our team and start enjoying additional freedom and abundance while looking good & feeling great. **Dare to have your dreams come true!!!!**
